

Larry Seyer

He gained national recognition as both a producer and engineer while living in Austin, Texas. For over 35 years, he worked with some of the biggest names in the music industry including Asleep At The Wheel, Huey Lewis, George Strait, Manhattan Transfer, The Dixie Chicks, Lyle Lovett, Dolly Parton, George Martin, Willie Nelson and over three-hundred other national artists.

From 1986 through 2007, Larry engineered almost all of the 'Asleep At The Wheel' recordings produced during that time period. Doing so won him several Grammy Awards and Platinum records. In addition to his producing and engineering skills, he has written and scored original music for eight motion pictures as well as national TV shows and documentaries.

From 1988, Larry became a student of "A Course in Miracles". Together with David Wilcock, Larry gave lectures at the Divine Cosmos Convergence Conferences all over the world, helping thousands of people to understand the meaning of "A Course in Miracles". Besides lecturing at these conferences, Larry was a regular lecturer at Dov Fishman's ACIM Gather. Over 200 lecture recordings in 7 years are available for download for free at his website (<http://larryseyer.com/>).

Besides introducing "A Course in Miracles" to unfamiliar crowds, he also helped to produce the audio book "The Holy Spirit's Interpretation of the New Testament (NTI)" for Regina Dawn Akers. He set up a website called Audible Spirit, selling Regina and other spiritual teachers' books and videos.

Currently he is playing music full time in Hawaii and working on a vision novel with "A Course in Miracles" concept as the main thread.
